

JYOTI JADHAV

Aspiring Business Analytics Professional | Software Developer | Digital Strategist
✉ jyotijadhav0192@gmail.com | [linkedin.com/in/jyoti-jadhav-7b12172](https://www.linkedin.com/in/jyoti-jadhav-7b12172) | 📍 Mumbai, India

PERSONAL STATEMENT

A motivated professional with hands-on experience in Python development, machine learning, and data-driven system design building AI applications with **88% classification accuracy**. Certified in Digital Marketing and Advanced Prompt Engineering with ChatGPT. Combining technical rigour with creativity, event management, and communication seeking to pursue an MSc in Business Analytics at Dublin Business School.

EDUCATION

B.Sc. Information Technology

June 2023 – Mar 2026

Thakur College of Science and Commerce, Mumbai University
Avg CGPA (Sem 1–6): 6.6 / 10

Higher Secondary Certificate (HSC)

July 2021 – Feb 2023

Thakur College of Science and Commerce
Percentage: 80.67%

PROFESSIONAL EXPERIENCE

Software Developer Intern + Video Editor

June 2026 – Present

SNSS Global Private Limited

- ▶ Develop and maintain live production software applications using Python, contributing directly to production codebases.
- ▶ Implement new features end-to-end, debug existing issues, and optimise application performance for reliability and speed.
- ▶ Write clean, maintainable, well-documented code following industry best practices and team coding standards.
- ▶ Collaborate with the development team to plan, build, and deliver efficient software solutions on schedule.
- ▶ Edit promotional and social media videos to support company marketing, brand presence, and audience engagement.

UI/UX Developer Intern

October 2025 – November 2025

Aurify

- ▶ Designed and improved user interfaces for client and internal applications, focusing on usability and visual consistency.
- ▶ Enhanced overall user experience by refining navigation flows and interaction patterns based on testing and feedback.
- ▶ Collaborated with cross-functional team members to implement design improvements aligned with company standards.

TECHNICAL SKILLS

Programming: Python, Java, C++, SQL, JavaScript

Web & Database: HTML5, CSS3, ASP.NET | MySQL schema design, complex queries, relational DB management

ML / AI: Machine Learning (Logistic Regression, PassiveAggressiveClassifier), NLP, OpenCV, TensorFlow

Analytics Tools: Jupyter Notebook, VS Code, Visual Studio, MS Office

Digital & Media: Social Media Marketing, SEO, Video Editing, Photography, Videography, Content Creation

Prompt Engg.: Advanced Prompt Engineering with ChatGPT AI-assisted content, analytics & campaign planning

Soft Skills: Analytical Thinking, Communication, Team Collaboration, Problem-Solving, Leadership

KEY PROJECTS

AI Fake News Detection System | Python · Machine Learning · NLP — Group Project

- ▶ Designed and deployed a full web application classifying news articles as real or fake using Natural Language Processing.

- ▶ Trained Logistic Regression and PassiveAggressiveClassifier models, achieving 88% classification accuracy demonstrating strong model evaluation and data preprocessing skills relevant to business analytics.
- ▶ Built an end-to-end pipeline from raw data ingestion and text vectorisation to model inference, integrated into a real-time web interface.

AI Weapons Detection System | Python · OpenCV · TensorFlow — Group Project

- ▶ Developed a real-time object detection system identifying weapons through a live laptop camera feed for security monitoring.
- ▶ Implemented computer vision pipelines using OpenCV for frame processing and TensorFlow for deep learning-based detection.
- ▶ Tuned model performance to balance detection accuracy with real-time processing efficiency on standard hardware.

Student Attendance Management System | PHP / Java / Python · MySQL — Mini Project

- ▶ Digitised manual attendance tracking by building a database-integrated system for recording, managing, and reporting student attendance.
- ▶ Designed a normalised MySQL database schema handling students, courses, and attendance records with efficient query performance.
- ▶ Coordinated team responsibilities and integrated individual modules into a cohesive, deployable system.

Hospital Management System | Java · MySQL — Mini Project

- ▶ Built a desktop application in Java managing core hospital operations including patient records, doctor scheduling, and billing.
- ▶ Designed a relational MySQL database maintaining referential integrity across patients, doctors, and billing modules.
- ▶ Implemented full CRUD operations and a structured user interface to streamline administrative workflows.

CERTIFICATIONS

- ✓ Digital Marketing : Social media strategy, content marketing, SEO, and online promotions
- ✓ Advanced Prompt Engineering with ChatGPT : Optimising LLM outputs for business and analytical use cases
- ✓ Python Essentials 1 | ✓ Introduction to Cybersecurity
- ✓ Recent Trends in Ecological Modelling & Simulation | ✓ C++ Programming
- ✓ Certificate of Extension Work

EXTRACURRICULAR, LEADERSHIP & SPORTS

- ▶ Founding Member — TCSC Green Club: Co-established the club; organised EcoSpectra (flagship env. fest), Govt.-collaboration plantation drives, beach clean-up drives, trekking for classmates, and two industrial visits to Himachal Pradesh & Punjab.
- ▶ DLLE Active Participant: Cycle for Change, beach cleaning drives, smoking awareness rally, and Mumbai University-level street play competition — building civic leadership and public communication skills.
- ▶ Head & Winner — Fashion Show Competition (Intracollegiate Fest): Led full concept, team, and stage execution; participated in multiple intercollegiate fashion shows. Winner — Group Dance Competition, College Annual Fest.
- ▶ Brand Ambassador — Viral Fission: Managing peer outreach, digital engagement campaigns, and promotional content targeting the college student community.
- ▶ Public Relations — College Events: Managed stakeholder communication, audience outreach, and promotional coordination across departments.
- ▶ Sports: University-level Volleyball (2 yrs, college rep + external club matches, 1 win) | Cricket — dept. captain & organiser (2 yrs) + external clubs | Kho Kho — DSO district level (Gr. 8 & 9).

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi

Location: Mumbai, India

Date of Birth: Available on request

Interests: Business Intelligence, ML, Digital Strategy, Data Visualisation, Event Technology
